Bruno Pedro

Monday, January 24, 2022

API evolution is making a comeback these days with GraphQL and gRPC advocates shouting about it. Whatever API paradigm or implementation you subscribe to, evolution is available to you. REST advocates have been recommending API evolution for decades, but in the past I failed to understand how exactly to handle evolution.

Found on API Evolution for RESTHTTP APIs on 2022-01-24 20:42:57.
