Friday, January 28, 2022

Many folks are looking to reduce the amount of code we need to write, and rightly so. Some approaches are more promising than others, so as architects we are compelled to create list of possible approaches and evaluate their respective trade-offs.

Found on 9 paths to Low-Code, some of which may actually work - The Architect Elevator on 2022-01-28 19:28:16.
